### DETAILED ACTION

1. Claims 1-17 are pending.
2. Claims 18-20 have been canceled.
3. Applicant's claim for the benefit of a prior-filed application under 35 U.S.C. 119(e) is acknowledged. Applicant has not complied with one or more conditions for receiving the benefit of an earlier filing date under 35 U.S.C. 119(e) as follows:

4. The later-filed application must be an application for a patent for an invention which is also disclosed in the prior application (the parent or original non-provisional application or provisional application). The disclosure of the invention in the parent application and in the later-filed application must be sufficient to comply with the requirements of the first paragraph of 35 U.S.C. 112. See *Transco Products, Inc. v. Performance Contracting, Inc.*, 38 F.3d 551, 32 USPQ2d 1077 (Fed. Cir. 1994).

The disclosure of the prior-filed application, Application No. 60/531,423, fails to provide adequate support or enablement in the manner provided by the first paragraph of 35 U.S.C. 112 for one or more claims of this application. See the radicals defined by Q<sup>2</sup> and Q<sup>3</sup>.

5. Based upon the Amendment filed May 21, 2008, the rejections under 35 U.S.C. 112, 1<sup>st</sup> paragraph, and 2<sup>nd</sup> paragraph are withdrawn.
6. The indicated allowability of claims 4, 5, 10, 11, 12, 14, and 17 is withdrawn.
7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 1625

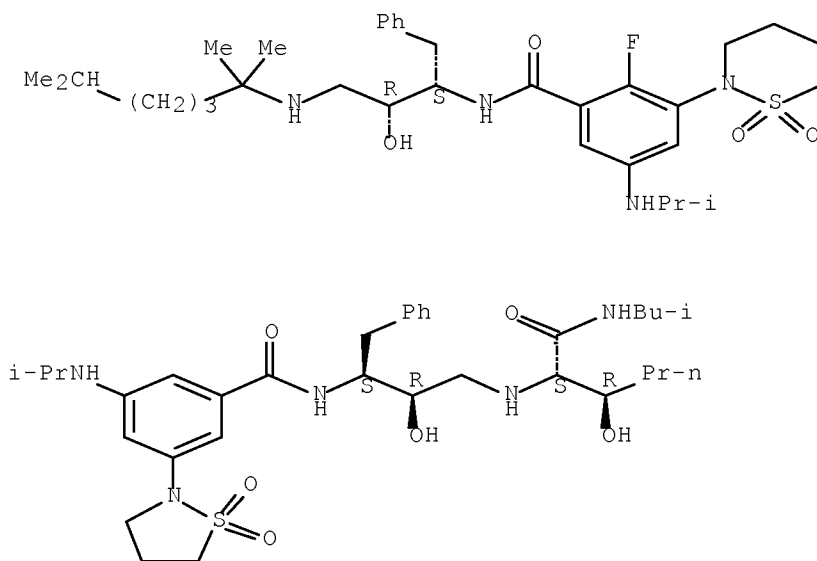

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

8. Claims 1, 4, 5, 10, 11, and 13-17 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Demont et al (Reference B which is equivalent to Reference B3, cited by applicants).

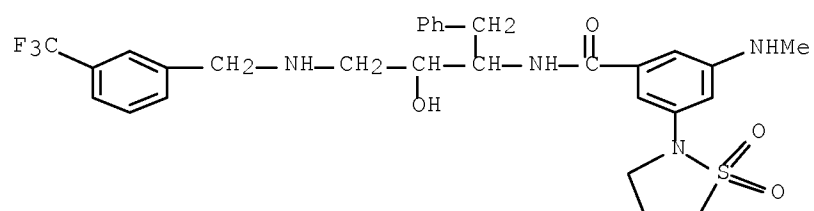

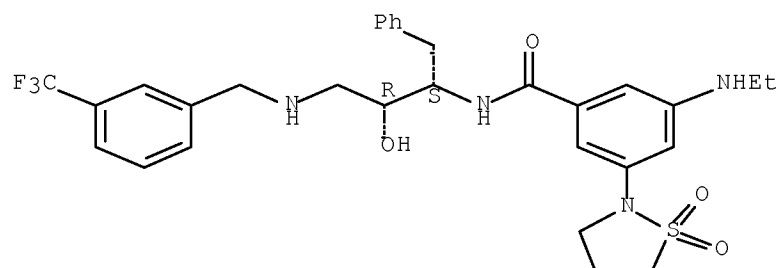

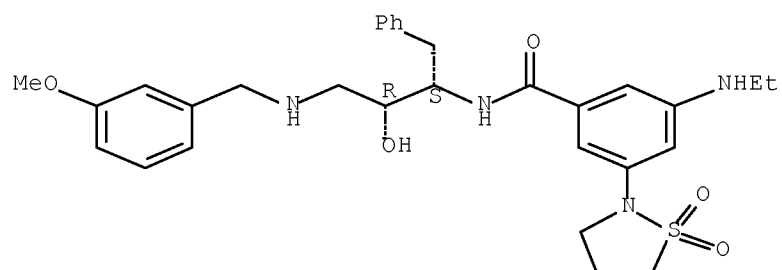

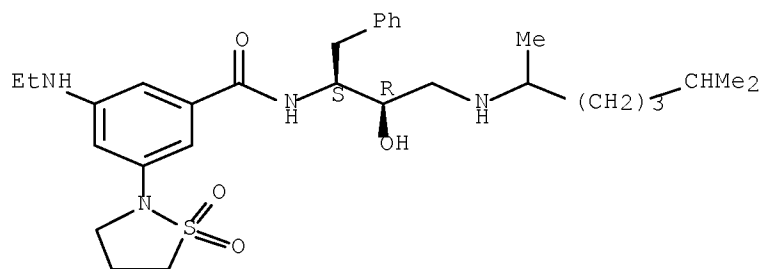

The instantly claimed compounds are taught. At page 1, see the generic
